History

- George Roger Clark, for whom the County is named, led a band of Kentuckians, including Simon Kenton into this territory and defeated the Shawnee Indians at the Battle of Peckuwe on August 8, 1780.
- The Treaty of Greenville was signed in 1795, leading to additional settlements into what was part of Champaign, Greene and Madison Counties.
- In 1817, Clark County was formed with the first County Commission meeting held on April 25, 1818.
- With the completion of the National Road through Springfield in 1839 and the railroads in 1840's over fifty passenger trains arrived daily.
- The availability of resources and manpower led Springfield to become one of the world's leading manufacturers of agricultural equipment. International Harvester Company (International) became a leading local industry, after William Whitley invented the combined self raking reaper and mower in 1856. In 1862 James Leffel invented the first practical water turbine and began manufacturing at its Springfield foundry.
- Ten different automobiles were manufactured here during the 1900's, two local beers, Red Head and Blue Head were made here; two Ohio governors were Clark County natives, Asa Bushnell and James Rhodes; two famous entertainers call Clark County home, Lillian Gish and Jonathan Winters.
- In 1983, Newsweek Magazine chose Springfield for it's 50th Anniversary Issue that dealt with the " Most Typical City in the USA - Springfield, Ohio."
